

INVASIVE SPECIES CONTROL POLICY
Approved by the Board of Directors March 28, 2009

It shall be the policy of the Arrowhead Lake Association to protect Lake Arrowhead from invasive species that have the potential of adversely impacting the ecology of the lake and to adopt such procedures as are necessary to accomplish this goal. Such procedures may include, but are not limited to the inspection of boats being launched onto Lake Arrowhead, chemical and biologic control of invasive species and prohibition of boats and equipment from unknown locations. Procedures may change as determined by ALA staff and with the permission of the general manager.
