

## **POLICY**

### ***Irrigation by Members on ALA Property***

Approved by the Board of Directors on February 27, 2010.

*In recognition of the benefits of limited irrigation in limited areas, the ALA will consider the permitting of irrigation for existing system where such systems meet the following conditions:*

- *Any irrigation system must be in compliance with the regulations of LACSD and other regulatory agencies as the regulations currently exist or may be amended from time to time.*
- *The use of irrigation systems must comply with the regulations of LACSD and other regulatory agencies as the regulations currently exist or may be amended from time to time.*
- *An application for a license to maintain the system on ALA property must be issued. There may be an application fee for a permit that will generate such a license.*
- *Licensed irrigation systems must be maintained in proper working condition and must not place water on any ALA trail or access path at any time. Failure to comply with this requirement may result in the revocation of any license that has been issued and removal of the system from ALA property.*
- *In order to qualify for a license, any irrigation system must have been in place prior to June 10, 2008.*
- *Temporary bubbler systems to establish plant materials are the only new systems which may be licensed for a period not to exceed 12 months.*
- *No irrigation system will be licensed to provide water to new lawn areas of any type.*
