

ALA Members,

Recently, LACSD has had TWO OPEN BOARD SEATS TO FILL, and OUR RESIDENTS of Arrowhead Woods have had 2+ years of open discussions regarding LACSD.

One of the topics or questions that was brought up was why doesn't the main author of the website "arrowheadwoodsformed" Mr Garen Vartanian run for the BOARD OF LACSD?

The answer to that question, is he doesn't fulfill the SIMPLE CRITERIA necessary to be allowed on the BOARD OF LACSD.

To be on the board of LACSD YOU MUST BE A RESIDENT to serve on the board. Mr Garen Vartanian IS NOT A RESIDENT. By stating that he is a resident is a fabricated narrative to gain credibility for his UNCHALLENGED WEBSITE.

LACSD has two battles to fight PFAS and arrowheadwoodsformed which permeates with a cancel culture mentality.

We, the mountain community do not want cancel culture to cancel OUR MOUNTAIN CULTURE. This worldwide public website BEGINS WITH A FALSEHOOD by declaring that the main author is a resident. The FALSEHOODS have continued with two years of false accusations about LACSD being negligent in some form or fashion.

Also, Mr Garen Vartanian and Ted Hyck have requested over 60 public record requests looking for some type of negligence and has found NOTHING. This is a witch hunt against LACSD.

The RESIDENTS of LAKE ARROWHEAD will continue to EXPOSE this public website. The fact is that arrowheadwoodsformed caters to and serves outside investors NOT OUR COMMUNITY. Mr Garen Vartanian gives advice on social media on how an Airbnb property owner can sue a full time RESIDENT OF ARROWHEAD. Also the main author wants to end our LIVING FOREST AND WILDLIFE by promoting NOT to

reinstate our 100 year old CC&Rs which have protected our living forest and wildlife for over 100 years.

ALSO, We do not want OUR DRINKING WATER to be put in the hands of outside investors that DONT use OUR DRINKING WATER. We trust the work of LACSDs board, GM, staff and employees to protect OUR DRINKING WATER at all costs.

ALSO, We the RESIDENTS of Arrowhead will bring to light if that changes. WE WILL NOT COME LAST.

We have received a multitude of questions regarding LACSD and what arrowheadwoodsformed states on their website. One of our residents asked if LACSD is out to kill us all. This question arose because arrowheadwoodsformed portrayed a vile scene of a dead human being being revived by a LACSD employee, as if LACSD had caused the death. This degree of false information is a common tactic for this UNETHICAL WEBSITE.

We have been involved with an outside investigative journalist and asked her for her objective opinion. She has read through our verified material such as board meetings, emails, public comments, our local newspaper, social media, police reports, and many other different forms of threats towards our residents.

We have come to the conclusion and collective opinion that this public website "arrowheadwoodsformed" which represents Airbnb investors is a TOOL UTILIZED to take control of every major aspect of our community such as LACSD and AWAC.

OUR RESIDENTS are well aware of our research and we have found no other water company that has been wrongly vilified for almost three years by a public website such as "arrowheadwoodsformed".

While the main author Garen Vartanian continues to condemn LACSD and AWAC and our residents of Arrowhead Woods. We condemn his unethical editorials and false information on his website. The newest false statements include last months statement that Arrowhead had less than one inch of rain when in reality it was well over seven inches of rain. Mr Garen Vartanian was off the mark by 600%.

Also, the main author states that 83% of property owners in the woods are part timers leaving just 17% as full timers. The real estimate is 35% full timers. This is 100% off the mark. This is confirmed by our water company LACSD who knows better than anyone.

We recognize that the criticism we face comes from a small percentage of our Arrowhead Woods community, and that most of our residents understand the battle against PFAS that LACSD continues to face and fight day in and day out.

Sincerely, Michael Schultz
